

HIGH SOCIETY

The modern 'High Society' combines the lines of an exclusive motor yacht with the practicality needed for a 'passenger boat' on London's Thames. Deceptively spacious and capable of taking up to 45 guests. Coupled with a new look given in Spring 2015, she is ideal for that upmarket private party or informal function. *Affordable high end entertaining on the Thames.*

Options to be seated on either deck, providing wonderful views of the London sights from both decks. Even better, the side panels of the Canopy structure roll up so if desired, you really can get an unobstructed view of the Thames. Full central heating for the winter months.

She boats a fully serviced galley/kitchen along with a fully stocked bar. Plus an in house Audio Visual system including LED lighting and a plasma screen.

<u>MV HIGH SOCIETY</u>
